Tyblume®

(levonorgestrel and ethinyl estradiol)
tablets, 0.1 mg/0.02 mg

PATIENT SAVINGS PROGRAM

How to get started on your Tyblume® Prescription*

1. Fill your Tyblume® prescription at the pharmacy and bring your co-pay card obtained from your doctor's office.
2. In order to apply savings benefit and reflect your final out of pocket cost, **ask your pharmacist to process your Tyblume® prescription** through your primary insurance along with the copay card.
3. If the pharmacist states the medication is **not covered under your insurance or there is an out-of-pocket cost over \$10**, ask the pharmacist to run the prescription as **"cash-pay" and apply the coupon**.
4. **There is no generic equivalent of Tyblume®.** If your pharmacist indicates they do not have Tyblume® in stock, ask them to order it and they can have it in **approximately 24 hours**.
5. If you experience any further problems, have your pharmacist call the Help Desk: **1-800-433-4893**

* Offer not valid for patients enrolled in Medicare, Medicaid, or any other federal or state healthcare program. See redemption instructions for further details.

Tyblume®

(levonorgestrel and ethinyl estradiol)
tablets, 0.1 mg/0.02 mg

PATIENT SAVINGS PROGRAM

Mail-order Patients

If you fill your prescription through a mail-order pharmacy, or if you are unable to have your card processed at your local pharmacy, please submit:

1. A photocopy of the front and back of your Patient Savings Program Card
2. Your original proof of purchase (original pharmacy receipt with your name and address, pharmacy name, product name, prescription numbers, NDC number, date filled, quantity, and price) and a photocopy of the front and back of your insurance card.
3. Your date of birth
4. Mail all of the information to:

Tyblume® Claims Processing Dept.
PO Box 2355
Morristown, NJ 07962

Please allow 6-8 weeks to receive your reimbursement.

Reimbursements are subject to Program Terms, Conditions, and Eligibility Criteria.

WARNING TO WOMEN WHO SMOKE

Do not use Tyblume® if you smoke cigarettes and are over 35 years old. Smoking increases your risk of serious cardiovascular side effects (heart and blood vessel problems) from birth control, including death from heart attack, blood clots or stroke. This risk increases with age and the number of cigarettes you smoke.

Please see enclosed Prescribing Information

*Offer not valid for patients enrolled in Medicare, Medicaid, or any other federal or state healthcare program. See redemption instructions for further details.

Tyblume®

(levonorgestrel and ethinyl estradiol)
tablets, 0.1 mg/0.02 mg

Program Terms, Conditions, and Eligibility Criteria: 1. This offer is available to patients with commercial prescription insurance coverage and cash paying patients for a valid prescription of TYBLUME® at the time the prescription is filled by the pharmacist and dispensed to the patient. 2. This offer is not valid for use by patients enrolled in Medicare, Medicaid, or other federal or state programs (including any state pharmaceutical assistance programs), or private indemnity or HMO insurance plans that reimburse you for the entire cost of your prescription drugs, or where prohibited by law or by the patient's health insurance provider. Patients may not use this offer if they are Medicare-eligible and enrolled in an employer-sponsored health plan or prescription drug benefit program for retirees. If at any time a patient begins receiving prescription drug coverage under any such federal, state, or government-funded health care program, patient will no longer be eligible to use the Patient Savings Program. 3. Most commercially insured and cash-paying patients should pay approximately \$0 for a 1-month or 3-month supply. The amount may vary slightly across pharmacies. Check with your pharmacist for your copay discount. Maximum savings limits apply; patient out-of-pocket expense will vary. 4. Exeltis USA, Inc. reserves the right to rescind, revoke, or amend this offer without notice. 5. Offer good only in the USA, including Puerto Rico, at participating retail pharmacies. Patients residing in or receiving treatment in certain states may not be eligible. 6. Void where prohibited by law, taxed, or restricted. 7. Patients may not seek reimbursement for value received from the Patient Savings Program from any third-party payers. 8. This card is not transferable. The selling, purchasing, trading, or counterfeiting of this card is prohibited by law. 9. This card has no cash value and may not be used in combination with any other discount, coupon, rebate, free trial, or similar offer for the specified prescription. 10. This offer is not health insurance. 11. By redeeming this card, you acknowledge that you are an eligible patient and that you understand and agree to comply with the terms and conditions of this offer.

Pharmacist instructions for a Patient with an Eligible Third Party Payer: Submit this claim using this card, you certify that you have not submitted and will not submit a claim for reimbursement under any federal, state, or other government programs for this prescription. Submit the claim to the primary Third-party Payer first, then submit the balance due to CHANGE HEALTHCARE using BIN #600426 as a Secondary Payer COB with patient responsibility amount and a valid Other Coverage Code (e.g. 8). If you receive a rejection due to PA, step-edit, or NDC block, submit Other Coverage Code of 03 (Secondary Claim). The patient's out of pocket expense will be reduced up to the maximum savings limit of the program. Reimbursement will be received from CHANGE HEALTHCARE.

Pharmacist Instructions for a Cash-Paying Patient: Submit this claim to CHANGE HEALTHCARE. A valid Other Coverage Code (e.g. 1) is required. The patient should pay approximately \$0 for a 1 or 3 month supply. Reimbursement will be received from CHANGE HEALTHCARE.

Valid Other Coverage Code required. For any questions regarding this coupon, or CHANGE HEALTHCARE online processing, please call the Help Desk at 1-800-433-4893.

Program managed by ConnectiveRx on behalf of Exeltis USA, Inc. The parties reserve the right to rescind, revoke, or amend this offer without notice at any time. Not valid if reproduced. Void where prohibited by law.

IMPORTANT RISK INFORMATION

Tyblume® (levonorgestrel and ethinyl estradiol oral tablets)

What is the most important information I should know about TYBLUME (a type of birth control pill)? Do not use TYBLUME if you smoke cigarettes and are over 35 years old. Smoking increases your risk of serious cardiovascular side effects (heart and blood vessel problems) from birth control, including death from heart attack, blood clots or stroke. This risk increases with age and the number of cigarettes you smoke.

What is TYBLUME? TYBLUME is a birth control pill (oral contraceptive) used by women to prevent pregnancy. TYBLUME does not protect against HIV infections (AIDS) and other sexually transmitted infections.

Do not take TYBLUME if you:

- smoke and are over 35 years of age.
- have or have had blood clots in your arms, legs, lungs, or eyes.
- have a problem with your blood that makes it clot more than normal. have certain heart valve problems or an irregular heartbeat that increases your risk of having blood clots.
- had a stroke.
- had a heart attack.
- have high blood pressure that cannot be controlled by medicine or have high blood pressure with blood vessel problems.
- have diabetes and are over 35 years of age;
- have diabetes with high blood pressure, blood vessel problems, or kidney, eye, nerve, or blood vessel damage; or have had diabetes for more than 20 years.
- have certain kinds of severe migraine headaches with aura, numbness, weakness or changes in vision, or any migraine headaches if you are over 35 years of age.
- have liver problems, including liver tumors.
- have any unexplained vaginal bleeding, have or have had breast cancer or any cancer that is sensitive to female hormones.
- take any Hepatitis C drug combination containing ombitasvir/paritaprevir/ritonavir, with or without dasabuvir. This may increase levels of the liver enzyme "alanine aminotransferase" (ALT) in the blood.

If any of these conditions happen while you are taking TYBLUME, stop taking TYBLUME right away and talk to your healthcare provider and use non-hormonal birth control.

Before you take TYBLUME, tell your healthcare provider about all of your medical conditions, including if you:

- are scheduled for surgery. TYBLUME may increase your risk of blood clots after surgery. You should stop taking TYBLUME at least 4 weeks before you have surgery and not restart TYBLUME until at least 2 weeks after your surgery.
- are pregnant or think you may be pregnant.
- are depressed now or have been depressed in the past.
- had yellowing of your skin or eyes (jaundice) caused by pregnancy (cholestasis of pregnancy).
- are breastfeeding or plan to breastfeed. TYBLUME may decrease the amount of breast milk you make. A small amount of the hormones in TYBLUME may pass into your breast milk. Talk to your healthcare provider about the best birth control method for you while breastfeeding.

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins and herbal supplements. TYBLUME may affect the way other medicines work, and other medicines may affect how well TYBLUME works.

Women on thyroid replacement therapy or steroid therapy may need increased doses of thyroid hormone or steroid medicines. Know the medicines you take. Keep a list of them to show your healthcare provider and pharmacist when you get a new medicine.

What are the possible side effects of TYBLUME?

TYBLUME may cause serious side effects, including:

- **blood clots in your lungs, heart attack, or a stroke that may lead to death. In some other examples of serious blood clots include blood clots in the legs or eyes.** Serious blood clots can happen especially if you smoke, are obese, or are older than 35 years of age. Serious blood clots are more likely to happen when you:

- first start taking birth control pills.
- restart the same or different birth control pills after not using them for a month or more.

Call your healthcare provider or go to the nearest emergency room right away if you have:

- leg pain that will not go away.
- sudden severe shortness of breath.
- sudden change in vision or blindness. chest pain.
- a sudden, severe headache unlike our usual headaches.
- weakness or numbness in your arm or leg.
- trouble speaking.

Other serious side effects include:

- **liver problems, including:**
 - jaundice. Call your healthcare provider if you have yellowing of your skin or eyes.
 - rare liver tumors.
- **high blood pressure.** You should see your healthcare provider to check your blood pressure regularly.
- **gallbladder problems (cholestasis),** especially if you previously had cholestasis of pregnancy.
- **changes in the sugar and fat (cholesterol and triglycerides) levels in your blood.**
- **new or worsening headaches including migraine headaches.**
- **irregular or unusual vaginal bleeding and spotting between your menstrual periods, especially during the first 3 months of taking TYBLUME or the absence of menstrual periods (amenorrhea).**
- depression.
- possible cancer in your cervix.
- **swelling of your skin especially around your mouth, eyes, and in your throat (angioedema).** Call your healthcare provider right away if you have a swollen face, lips, mouth, tongue or throat, which may lead to difficulty swallowing or breathing. Your chance of having angioedema is higher if you have a history of angioedema.
- **dark patches of skin around your forehead, nose, cheeks and around your mouth, especially during pregnancy (chloasma).** Women who tend to get chloasma should avoid spending a long time in sunlight, tanning booths, and under sun lamps while taking TYBLUME. Use sunscreen if you have to be in the sunlight.

The most common side effects of TYBLUME include:

- headache
- stomach (abdominal) pain
- nausea
- vaginal bleeding in between your periods
- vaginal yeast infection and pain
- acne
- infection or swelling of the vagina that can cause discharge, itching, and pain

These are not all the possible side effects of TYBLUME. For more information, ask your healthcare provider or pharmacist. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.
